

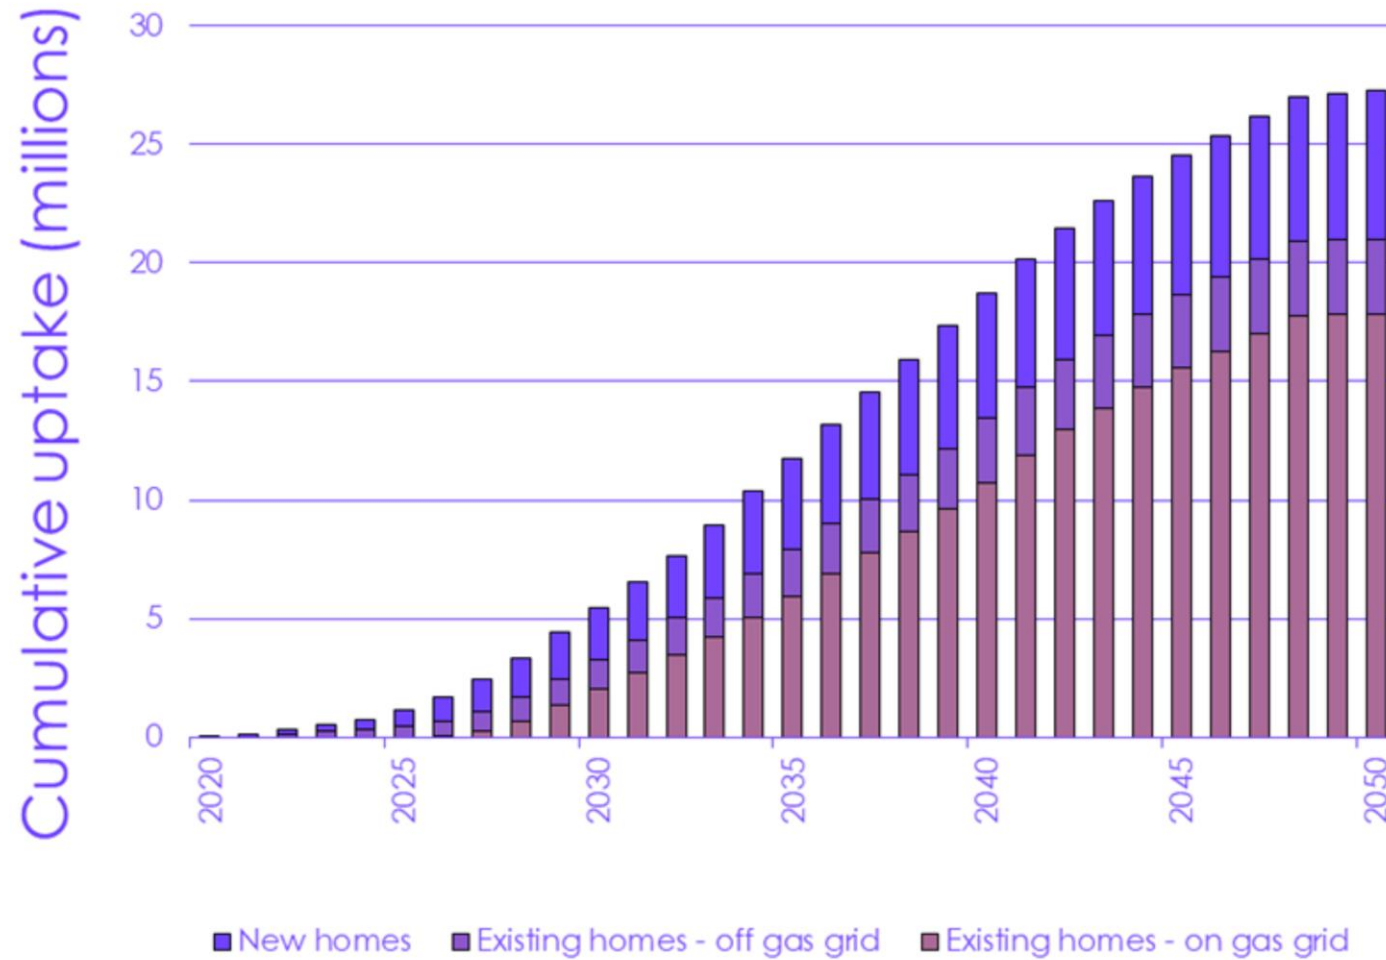

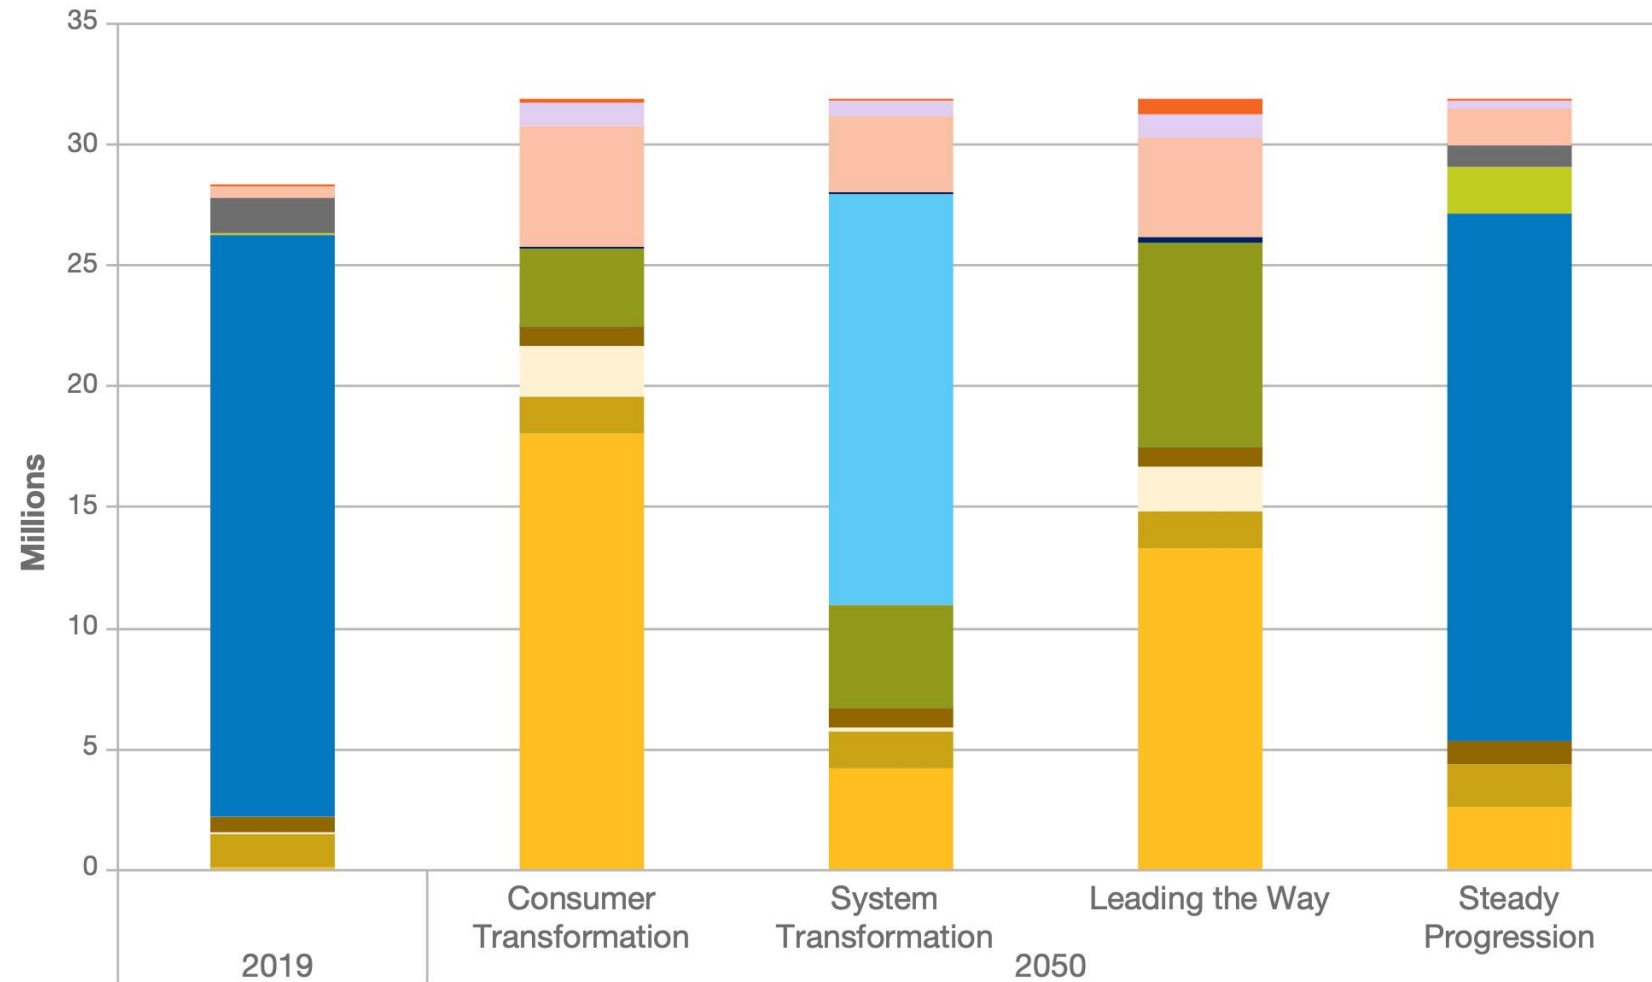

Figure A3.2.c Uptake of heat pumps in residential buildings

Source: Element Energy for the CCC (2020) *Development of trajectories for residential heat decarbonisation to inform the sixth carbon budget.*

Figure CV.10: Overall home heating technology mix in 2050

- ASHP
- Gas boilers
- Hydrogen boilers
- Others
- Electric storage heaters
- Hybrid boilers (Natural gas)
- Biomass boilers [Bio-fuels]
- GSHP
- Hybrid boilers (Hydrogen)
- District Heat
- Direct Electric Heating
- Oil, LPG, & solid fuel boilers
- Bio-Fuels (Off gas Grid)
